Event Details

Lecture Title : TOWARDS USER FRIENDLY CRYPTOGRAPHY

Lecturer : Dr. Goichiro Hanaoka

Date : 2nd December 2016 (Friday)

Time : 2.30 pm – 4.30 pm

Venue : Pullman Kuala Lumpur City Centre, Malaysia.

Event Summary

The event began at 2.30 pm in the afternoon upon the arrival of Dr. Goichiro Hanaoka (Lecturer) and Prof. Swee-Huay Heng (IEICE representative for Malaysia section) with approximately 35 to 40 audiences present in the seminar room. The audience consisted of professors and lecturers from several University of Malaysia, researchers from MIMOS Berhad, as well as postgraduate and undergraduate students. Before the lecture began, Prof. Swee-Huay Heng, the Vice President (R&D) of MMU, gave an opening speech to briefly introduce IEICE Malaysia Section and to welcome Dr. Goichiro Hanaoka. After that, Dr. Goichiro Hanaoka delivered his lecture with the title of “TOWARDS USER FRIENDLY CRYPTOGRAPHY”, which lasted for around 1 hour, followed by a 25-minute Q&A session. Next, Prof. Heng, on behalf of IEICE Malaysia Section and MMU, presented a token of appreciation to Prof. Dr. Goichiro Hanaoka. Prof also explained the benefits of joining IEICE section to encourage new members to join in IEICE Malaysian section. The lecture session ended with a group photo session and light refreshment.
